BEST OF DRINKWARE

myCasan & myPetrolina: Drinking bottles with individual carrying strap.

The **CASAN** drinking bottle is one of our most popular bottles. Reason enough to let the family grow! Above, new individualisation possibilities are making parts of this article group more popular than ever. The drinking bottles from the **CASAN family** are now also available with individualised straps! As with lanyards, you can freely design them and make them, even when viewed from a distance, an eye-catcher. Choose a **CASAN** drinking bottle or the **PETROLINA** drinking bottle. Both are available in different colours and filling quantities (from 350ml).

From 3,000 pieces, the bottle colour and the colour of the soft grip on the cap can be adjusted. The buckle made of high-quality aluminium is available in matt silver and black lacquer. An elegant laser engraving on the buckle completes your myCasan in detail. The polyester strap is customised with your design using heat transfer. Alternative straps and customisation are available on request.

Choose a drinking bottle

Choose a CASAN drinking bottle or the PETROLINA drinking bottle. Both are available in different colours and filling quantities (from 350ml). From 3,000 pieces, the bottle colour and the colour of the soft grip on the cap can be adjusted.

Choose buckle and customisation:

The buckle made of high-quality aluminium is available in matt silver and black lacquer. An elegant laser engraving on the buckle completes your myCasan in detail.

Choose the strap material and customisation

The polyester strap is available from 100 pieces and customised with your design using heat transfer. Alternative straps and customisation are available from 3,000 pieces on request.

Choose drinking bottle with customisation:

Place your advertising message expressively on the bottle body. As usual, it can be easily printed with your motif/logo.

Advertising with impact:

Step by step to your individual drinking bottle.

It is a big move towards more individuality and a corporate look: Do not customise as usual and ensure maximum recognition of your brand with a carrier strap in your colours and with your distinctive motif. The 15 cm long strap, made of polyester, can be completely individualised with heat transfer. Here, we cooperate with an

extremely reliable and competent partner in the EU. The bottles are printed at the company's site in Cologne and finished with your customised straps. Of course, we will also make sure that your masterpiece reaches you as quickly as possible in order to make sure your advertising can make an impact.
