Six times the perfection.

Has it all: the 6-in-1 cable set REEVES-myConvertics

Digital technologies allow us to be online anywhere, anytime in order to work remotely and to communicate with each other. Of course - it's annoying when your smartphone runs out of battery power when you're messaging or you urgently need your files during a meeting! By using our 6-in-1 cable set REEVES-myConvertics you are best prepared for every occasion.

The useful set contains a USB-C to USB-C charging cable with a length of 48 cm, plus adapters for Micro USB, Apple® 8 Pin and USB-A. Depending on the end device and adapter, the USB-C cable is suitable for fast charging up to 60 watts. All digital end devices can be charged or connected via cable easily - no matter whether it's a digital camera, a smartphone, your headphones, tablet or wireless speaker.

2 case colours - 17 ring colours - 34 colour variants

Small, useful, perfectly organised.

Whether on holiday or on a business trip, the useful 6-in-1 cable set REEVES-myConvertics proves its capabilities: The round box made of ABS plastic can be attached to a backpack, handbag, laptop or travel bag with a solid snap hook.

The slim case of REEVES-myConvertics allows for nearly any configuration. It is available in black and white, and is equipped with a matching colour snap hook.

A silicone ring adds additional colour accents and there are 17 colours to choose from. In total the case is customizable in 34 different colour variations. The large area on the round lid offers plenty of space for your individual advertising imprint.

With REEVES-myconvertics you have everything in the right place even when you're on the go! Everything's clearly sorted and safely stored in a useful box, which saves space and weight and you can always rely on.

Possible applications 6-in-1

USB-C to USB-C

Micro-USB to USB-C

Apple® 8pin to USB-C

Typ C to USB-A

Micro-USB to USB-A

Apple® 8pin to USB-A

*Apple® is a registered trademark of Apple Inc. registered in the US and other countries.

There's a lot in it for you.

The round case can easily be opened by sliding it open from the side. Your advertising message always remains visible. A magnetic closure ensures that nothing falls out, even when the case is shaken.

Our 6-in-1 cable set REEVES-myConvertics leaves no one hanging. Thanks to a sturdy carabiner hook, you can easily take the cable and adapter with you wherever you go – whether to the beach or to the office. The hook is colour-coordinated with the case: The black box comes with a black carabiner, the white box with a silver hook.

Sustainability.

The item is manufactured using modern methods. Remaining CO₂ emissions are compensated retrospectively. (Project: Kemphole Mini Hydel Scheme for hydroelectric power, India)

Even from small quantities, we provide our customers with highly individualised products – thanks to in-house assembly and product customization with short delivery times.

Fancy a few extras?

As with all our products, we also offer additional customisation options for REEVES-myConvertics. You may choose between high-class laser engraving, precise 1C and 2C pad printing and large-area UV printing.
