Configurable stainless steel drinking bottle (single-walled)

Configure the budget-friendly drinking bottle myToulon according to your customer's requirements with a silicone ring for the bottle neck and a bottom sleeve made of high-class silicone. The single-walled stainless steel bottle with 700 ml filling volume is offered in five different varnish colours with anti-fingerprint coating and can be combined with rings and

sleeves in 17 different silicone colours. With a customisation, your branding will be perfect.

Choose between laser engraving, pad printing or large-area UV printing. All components are available from our warehouse in Cologne. Configure your individual bottle online now!
