CLASSICS & IDEAS

Table of contents

It is our pleasure to present you with the latest products from our brands. In this catalogue, we have put together a special selection that includes both new and tried-and-tested items.

In the first part of this catalogue, we guide you through the exciting new products from our brands. Discover the products from **Retumbler: Best of Drinkware**, which impress with their elegant design and high functionality. Immerse yourself in the world of intelligent solutions from **Reeves: Smart Electronics**. And be inspired by the creative and classic ideas of **Re98: Classic & Ideas**, which effortlessly combine tradition and innovation.

The back section of the catalogue provides you with an overview of our existing range and introduces you to products that are popular with products that are popular with our customers and have proven themselves through their quality and reliability.

Have fun discovering them!

It is our pleasure to welcome you. We represent not only the world of innovative and creative promotional products, but we pledge our commitment to sustainability. In our corporate culture, sustainability is more than just a buzzword - it is a fundamental part of our DNA. Our aim is to provide you with a stage on which your advertising messages can not only be heard, but also have a lasting impact. We firmly believe that advertising has the power to initiate positive change and raise awareness of environmental and social responsibility. That's why we focus on strategies and solutions that are both innovative and environmentally conscious.

Quality and sustainability go hand in hand: our commitment to a better future

The durability of our products is central to our quest for a more sustainable future. We are proud of the fact that high quality is not just a promise, but a lived practice. This is reflected in our comprehensive sustainability strategy:

1. Quality in materials and workmanship: we carefully select materials and We pay attention to the highest processing standards to guarantee durability.
2. Safety and legal compliance: To ensure the health and safety of all users, we only use materials for our promotional products that are both safe and legally compliant.
3. Corporate social responsibility (CSR): Our commitment goes beyond product quality. We are committed to ethical behaviour, fair working conditions, environmental protection and social commitment.

Member of amfori, the leading global business association for open and sustainable trade. For more information visit www.amfori.org

Final assembly on site: Quality assurance and focus

Our configurable products are assembled in Germany and Europe. This decision symbolises our commitment to quality and sustainability. Through local assembly and packaging, we not only ensure the highest quality standards, but also reduce CO2 emissions through shorter transport routes and more efficient material utilisation. This practice enables us to us to respond flexibly to customer needs and minimise our ecological footprint by by combining quality and environmental awareness.

Our path to more sustainable corporate governance

We are pleased to inform you that our journey towards an improved eco-balance has begun with our certification as an Ökoprofit NRW company. This award marks a significant milestone in our ongoing endeavour to act more sustainably in all areas of our company.

Through innovative measures in production and transport as well as the use of new technologies, we are continuously working to reduce our environmental impact. Our efforts, transparently presented in our first Sustainability Code Report 2022, were recognised by our nomination for the German Sustainability Award and encourage us to act as a role model for sustainable practices in our industry.

Packaging reduction and certified materials: Our path to more sustainable products

Since 2019, we have made a decisive change in strategy, focusing on the avoidance of unnecessary packaging. This change is an essential part of our efforts to act in a more environmentally friendly and responsible manner.

Our products are now only packaged when absolutely necessary to protect them. This approach helps to significantly reduce packaging waste and minimise our environmental impact. In cases where packaging is unavoidable, we have committed to gradually switching to more sustainable alternatives.

BEST OF DRINKWARE

Warmth meets design: Thermo mug made from recycled stainless steel with bamboo handle.

52605
RETUMBLER-ORTADO OFFICE

NEW

eco-box included

360 ml

Thermo mug

- ✓ Recycled Stainless Steel
- ✓ Recycled AS Plastic
- ✓ Leak-resistant
- ✓ Double wall with vacuum insulation

An elegant, finely powder-coated thermo mug complete with a handle and sliding lid - the RETUMBLER-ORTADO-Office is the quintessential office mug from our ORTADO range. Just as with other versions in the range, the mug is crafted from recycled materials: the body is made from recycled stainless steel, while the lid combines recycled polypropylene and AS plastic. The 360 ml mug features a transparent, BPA-free lid with a silicone seal. Its sliding mechanism ensures effortless opening and gentle closing. The genuine beechwood handle is sturdy, adding a pleasing colour contrast to the mug. Owing to its double-walled vacuum insulation, the office mug keeps hot drinks warm for up to 4 hours and cold drinks chilled for up to 24 hours. Tip: Given its wooden handle, we recommend hand-washing the thermal mug.

Material	wood, silicone, recycled stainless steel, recycled polypropylene, recycled AS plastic
Measurements	104 x 123 x 123 mm
Weight	237g
Packaging	Eco-Box
Branding	50 x 70 mm
Handling category	C

52606
RETUMBLER-ORTADO TO GO

360 ml

Thermo mug

NEW

- ✓ Recycled Stainless Steel
- ✓ Recycled AS Plastic
- ✓ Leak-proof
- ✓ Double wall with vacuum insulation

This 360 ml thermo mug with a flip-lid is the perfect companion for on-the-go and in the car. As with other variants from the ORTADO range, the drinking mug is made from recycled materials: the body is crafted from recycled stainless steel, whilst the lid is made from recycled polypropylene and AS plastic. The twist-lock feature, coupled with a silicone seal on the lid, ensures the mug is leak-proof. Due to its double-wall construction and premium vacuum insulation, the ORTADO-To-Go mug keeps beverages warm for up to 5 hours or cold for up to 24 hours. Tip: Both the mug and the lid are dishwasher-safe.

Material	silicone, recycled stainless steel, recycled polypropylene, recycled AS plastic

500 ml

Thermo Drinking Bottle

- ✓ Recycled Stainless Steel + Recycled PP
- ✓ Leak-proof
- ✓ Double wall with vacuum insulation
- ✓ Dishwasher safe

The RETUMBLER-ORTADO-500 is a premium thermo bottle crafted from recycled stainless steel and recycled polypropylene plastic. It captivates with its aesthetic design, tactile pleasure, and outstanding quality. Owing to its double-walled vacuum insulation, this drinking bottle offers superb insulation properties: beverages maintain their warmth for up to 7 hours and remain cold for up to 36 hours. The delicate powder coating gives the bottle an exceptionally pleasing touch. A cork lid, complemented with a practical handle, provides a harmonious appearance. The handle ensures the drinking bottle can be comfortably carried or attached to a bag – making it perfect for on-the-go. The silicone seal and twist cap ensure the thermo bottle is securely sealed, offering leak-proof protection. This makes the bottle suitable for carbonated drinks. The item can be cleaned in the dishwasher.

green 52604-GN

eco-box included

The RETUMBLER-ORTADO-750 is a premium 750 ml thermo bottle crafted from recycled stainless steel and recycled polypropylene plastic. Its striking appearance, pleasing touch, and outstanding quality set it apart. The double-walled vacuum-insulated bottle has excellent thermo characteristics, ensuring beverages stay warm for up to 11 hours and cold for up to 41 hours. The bottle's fine powder coating provides an exceptionally pleasant tactile experience. An elegant cork lid with a metal handle complements the design harmoniously. Due to its silicone seal and screw cap, the bottle is securely sealed and leak-proof, making it suitable for carbonated beverages. The handle allows it to be comfortably carried or attached to a bag. The thermo bottle can be safely cleaned in a dishwasher. Please note: The cork lid is not dishwasher safe.

RETUMBLER-DUOSHOT

80 ml

Thermo Espressoheber

- ✓ Double wall
- ✓ Dishwasher safe
- ✓ Micro powder coating
- ✓ Set of 2

This REFLECTS® original design comprises two premium black espresso mugs made from recycled stainless steel. Their elegantly contoured shape and the black powder coating perfectly complement the design of our RETUMBLER-Colesso thermo mug – positioning the RETUMBLER-Duoshot as an innovative addition to our COLESSO range. Each double-walled 80ml coffee mugs can comfortably hold two espressos. The dual-layer construction insulates hands from the heat, ensuring a delightful drinking experience. These handy espresso mugs are perfect for daily use and on-the-go moments. A practical note: these thermo mugs can be effortlessly and thoroughly cleaned in the dishwasher.

6,6 cm

52628 RETUMBLER-DUOSHOT GLASS

55 ml Thermo Espressoheber

- ✓ Double wall
- ✓ Heat resistant glass
- ✓ Dishwasher safe
- ✓ Set of 2

This set of two includes double-walled espresso glasses made from borosilicate glass, each with a capacity of 55 ml. The premium material ensures outstanding heat resistance. The practical double-wall design keeps coffee warm for extended periods while simultaneously protecting the hands. Furthermore, the coffee glasses has a unique aesthetic: due to the transparent double-wall, the beverage appears to „float“ inside the glass. The effect makes coffee specialties such as Espresso Macchiato or Espresso Marocchino visually fascinating. Care tip: The espresso glasses can be cleaned in the dishwasher without any residue.

52594 RETUMBLER-COLESSO

400 ml

Thermo mug

- ✓ Leak-proof
- ✓ Dishwasher safe
- ✓ Double wall with copper-vacuum insulation
- ✓ BPA free

The 400 ml thermo mug is an in-house design and is available in black and white. The transparent lid and the elegantly curved shape of the mug form an impressive appearance. The powder coating provides a pleasant feel and protects the surface of the mug from scratches and fingerprints. The lid was made of BPA-free plastic and is therefore harmless to health. The screw cap and the silicone seal on the lid ensure that the thermo mug is leak-proof. Thanks to the double-walled design and the high-quality copper vacuum insulation, the mug keeps drinks hot for 5 hours. It can be easily and thoroughly cleaned in the dishwasher.

RETUMBLER-VIVERO STEEL

350 ml

Thermo mug

- ✓ Recycled Stainless Steel
- ✓ Leak-proof
- ✓ Dishwasher safe
- ✓ Double wall with copper-vacuum insulation

The mug – made of recycled stainless steel – is available in three versions: black or white powder coating or silver mirror finish. The powder coating gives the thermo mug a modern, matt look and good scratch resistance. The special mirror finish through high gloss polishing forges an absolutely striking look of the mug. The lid is made of BPA-free plastic and is available in either black or white. The double-walled design and the copper vacuum insulation ensure the excellent insulation performance of the mug. The leak-proof mug keeps drinks warm for 6 hours. Tip: All three variants are dishwasher safe.

Thermo mug

350 ml

- Leak-proof
- Dishwasher safe
- Double wall
- BPA free

Our innovative in-house development redefines the principle of the reusable mug for advertising messages. The 350 ml mug consists of three components: The inner mug is made of high-class stainless steel, which can be matched with a white or black lid featuring a uniquely large print area. To round off the concept, there is a choice of twelve outer mug colours - ten transparent and two opaque mug colours.

The outer mug can be used as an additional drinking mug if required. The transparent outer mugs are another highlight of the myVivero, as the inner mug seems to float inside. Advertising on the outer mug gives it a new visual dimension.

RETUMBLER- myTOULON-GLASS is an evolution of the popular RETUMBLER-myToulon drinking bottle – now crafted from new materials. This 650 ml bottle is made from borosilicate glass, recycled stainless steel, and recycled polypropylene plastic. A standout feature of the high-quality, heat-resistant borosilicate glass is its handcrafted, mouth-blown craftsmanship. With its matte, translucent finish (resembling frosted glass), the bottle is truly a sight to behold (available for colour models only). This leak-proof drinking bottle is suitable for both hot and cold beverages.

The configurable myToulon-Glass bottle can be paired with a silicone ring and sleeve, with a choice of 17 different silicone colours.

Care tips: The clear bottle can safely be washed in a dishwasher, the painted models should be hand-washed.

myDringeo

In an ever-changing world where quality and design go hand in hand, we are delighted to have the RETUMBLER-myDringeo thermal mug and 500ml and 750ml capacity thermal bottles in our range. Here are the reasons why these products are a top choice for our customers:

High-class materials: made of stainless steel, these products not only stand for durability and reliability, but also for timeless elegance. Stainless steel is rust-free, neutral and offers the perfect protection for your drink.

Versatile functionality: Whether you want to keep your coffee hot or your water cool during a busy summer day, these products guarantee hours of temperature maintenance. Whether you are on the go with the thermo mug or take our thermo bottles for extended trips or work days, you always have the right product at hand.

Sizes for every need: With the thermo mug and the two thermo bottle sizes of 500 ml and 750 ml, we cover a wide range of customer needs. Whether you need just a small sip or a larger quantity for the whole day, we have the right product for you.

Stylish design: The noble design in stainless steel look makes every product in this series an eye-catcher. They are not only functional, but also fashionable accessories that fit any lifestyle.

The stainless steel mug with anti-fingerprint finish features a practical 360° lid and can be customised with a coloured ring. In addition, the soft base can be chosen from 17 different colours. All configurable components of the Drinqeo family are available from stock in Cologne.

The completely BPA-free mug is double-walled with vacuum copper insulation and has a capacity of 350 ml. Due to a small technical feature integrated into the lid, the thermo mug has a very good insulation performance: it keeps warm for eight hours and cold for 24 hours. The 360° lid can be opened/closed with one hand and allows comfortable drinking without a fixed drinking opening. The soft base ensures a secure stand on all surfaces.

mySteelOne

The thermo mugs and thermo drinking bottles from RETUMBLER- mySteelOne are not only aesthetically pleasing, but also technologically advanced and it is for these very reasons that we have included them in our range. Here are some of the most important reasons:

High-class technology: vacuum copper insulation guarantees excellent temperature maintenance - 9 hours for hot drinks and an impressive 32 hours for cold drinks. This ensures that your drink always stays at the desired temperature.

User-friendliness: The 360° lid is not only a clever design element, but also extremely practical. It allows the user to drink from any angle and the deep seal optimises the insulating performance.

Functionality & safety: An anti-slip soft bottom ensures that the mug stands stable, even on slippery surfaces. This minimises the risk of spills and accidents.

Versatility: The thermal drinking bottle is also suitable for carbonated drinks, which makes it an ideal companion for a variety of drinks.

Durability & easy care: The high-class powder coating not only gives the cup and bottle a classy finish, but also provides additional protection. And since both items are dishwasher safe, cleaning them is child's play.

Thermo mug

400 ml

- ✓ Double wall with copper-vacuum insulation
- ✓ Dishwasher safe
- ✓ Leak-proof
- ✓ Changeable rubber bottom
- ✓ 360° lid

The RETUMBLER-mySteelOne thermo mug is the first mug to match the RETUMBLER-mySteelOne thermo drinking bottle. Like the thermo drinking bottle, the double-walled mug with vacuum copper insulation is a REFLECTS design. Special features are its large filling capacity of 400 ml and its unique 360° drinking lid.

The mug is available powder-coated in white, black or silver. The 360 degree lid with engravable stainless steel surface can be opened and closed by simply pressing on the surface. There is no defined drinking opening. This enables the user to enjoy the entire surface of the lid for drinking. A small technical feature is that the seal of the lid is positioned deeper inside the mug, thus further increasing the insulating performance. The mug keeps warm for up to 9 hours and cold for 32 hours.

Material	stainless steel, plastic, silicone
Measurements	202 x 84 x 84 mm
Weight	365 g
Packaging	gift box
Branding	30 x 165 mm

750 ml

Thermo Drinking Bottle

- ✓ Double wall with copper-vacuum insulation
- ✓ Dishwasher safe
- ✓ Leak-proof
- ✓ Changeable rubber bottom
- ✓ Micro powder coating or Anti-fingerprint

A real eye-catcher: the double-walled thermo drinking bottle with vacuum insulation can be combined with a coloured TPR base and a lid accent made of silicone. Many different colours are available for selection right from Cologne. The bottle, designed by REFLECTS itself, is available in three different colours (black, white, silver) with a high-quality powder coating. The dishwasher-safe thermo drinking bottle has a filling volume of 750 ml and can also be used for carbonated drinks.

52566 RETUMBLER-STEELONE

Thermo mug

400 ml

- ✓ Double wall with copper-vacuum Insulation
- ✓ Dishwasher safe
- ✓ Leak-proof
- ✓ Changeable rubber bottom
- ✓ 360° lid

The double-walled thermo mug with copper vacuum insulation is available in three different glossy varnished colours and two powder coatings. As an attractive, high-class thermo mug, it matches the SteelOne thermo bottle. Both products are a protected REFLECTS own design.

The 360° lid allows comfortable drinking without a fixed drinking opening. The cup can be opened and closed by light pressure on the stainless steel surface of the lid.

The BPA-free thermo mug has a filling volume of 400 ml and keeps drinks warm for up to 9 hours thanks to the deep seal between the lid and the mug. Cleaning in the dishwasher is possible with the varnished mug, but we recommend cleaning by hand. The rubberised interchangeable base and the silicone ring on the lid are in the same colour as the bottle.

Drinking bottle

500 ml

- Leak-proof
- Loop
- Recycled PET plastic

The RETUMBLER-AUPRY is a practical, leak-proof drinking bottle offering outstanding value for money. The bottle is crafted from recycled PET plastic and the inner side of the lid is made from recycled polypropylene plastic. Both materials are BPA-free, ensuring they are safe for health. The exterior of the lid is fashioned from stainless steel.

Due to its carry loop, this drinking bottle can be easily transported, making it ideal for on-the-go. Please note that this bottle is designed for cold beverages below 40 degrees Celsius. As such, we recommend hand washing the RETUMBLER-AUPRY.

Wireless Charger

- ✓ Output (wireless): 15 watt
- ✓ Coils: 1
- ✓ Including USB-A to USB-C Cable
- ✓ USB-C Connector
- ✓ With overheat protection
- ✓ Integrated overvoltage and short circuit protection

REEVES-GINGCAST is a high quality wireless charger with a transparent acrylic case, providing a charging surface with an output power of up to 15 watts. This ensures fast and convenient charging. The visible copper coil is a visual highlight, giving the wireless charger a cool industrial techno look. The four anti-slip pads on the bottom provide a secure stand - even on glossy surfaces. REEVES-GINGCAST is chargeable via a USB-C port. Overheating, overvoltage and short-circuit protections are integrated in the REEVES-GINGCAST. A high-quality gift box and an 1-meter USB-C to USB-C cable (with a USB-A adapter) are included. Customer logo and slogans can be applied on the wireless charger via laser engraving CO2, UV printing or pad printing. Our tip: A full-surface printing on the backside of the charger makes it an eye-catcher.

- ✓ Output (wireless): 15 watt
- ✓ Coils: 3
- ✓ Output (wireless): 3 watt
- ✓ With overheat protection
- ✓ Integrated overvoltage and short circuit protection
- ✓ Including USB-A to USB-C Cable

This charging station is capable of charging up to three inductive devices simultaneously. Two charging zones are available, each with up to 15 watts of output power for mobile phones, wireless headphones or other end devices. One of them is equipped with a magnetic ring that provides a more secure hold for the end device. Between the two charging zones is another charging surface with 2.5 watts, which is specially designed for Apple® Watch*. The high output power guarantees rapid charging. The super-thin case is made of aluminium and tempered glass. The black and glossy surface as well as the visible charging coils made of copper give the charger a technical look.

Apple® is a trademark of Apple Inc. Registered in the US and other countries.

53008 REEVES-myFLASH 300 PREMIUM

Torch

The rechargeable REEVES-myFlash 300 torch is a more compact version of the powerful REEVES-myFlash 700. Crafted from recycled aluminium, this torch is a REFLECTS® own design for the REEVES® brand. It sports a dark grey anodised finish and can be paired with a grip sleeve. The silicone components are available in a wide range of colours from stock in Cologne. For the first time, a bamboo sleeve option is available. The torch can be ordered without a grip sleeve, but it comes with a wrist strap.

The dark grey torch can be recharged using a USB-C port located at the top of the lamp. This port is discreetly concealed beneath the beam-adjustment feature, ensuring an overall IPX4 splash-resistant rating. A USB-A to USB-C charging cable is provided in the package.

All crucial safety circuits are built into the torch, inclusive of overvoltage, overheating, and short-circuit protection.

Rechargeable Multifunction Flashlight

- Lumens: 350
- Rechargeable
- Magnetic attachment
- Carabiner
- Stand
- Bottle opener

Introducing the REEVES-SUPERSQUARE: The multi-functional torch that's an essential addition to any kit. Compact, convenient and powerful, it boasts a striking COB brightness of 350 lumens. Whether in the workshop or on the move, its integrated magnetic mount and fold-out stand ensure optimal lighting alignment every time. For outdoor adventures, a handy carabiner and a bottle opener are built right in. Three different light levels (30%, 60%, 100%) and an additional flashing or signaling light ensure adaptability in any circumstance. Crafted from premium aluminium and sturdy plastic, the REEVES-SUPERSQUARE epitomizes durability and quality.

53006 REEVES-CLERDON

Head Lamp

- ✓ Rechargeable
- ✓ Including USB Cable
- ✓ LED colour: red
- ✓ LED colour: white
- ✓ Magnetic attachment

REEVES-CLERDON is a wonderful versatile headlamp with 280 lumens. It features a particularly bright light and a variety of functions. There are two light colours available: white and red. The white light can be dimmed to 100%, 50% and flashing, while the red light can be set to continuous and flashing light. The lamp has a removable light diffuser. The running time of the lamp is up to 16 hours. The soft, elastic and adjustable headband ensures comfortable wearing. By twisting it gently, the lamp can be separated from the strap and then used separately. It can be held on magnetic surfaces with a built-in magnet or hung on the carabiner. With an integrated clip on the plastic flap, the lamp can also be attached to other materials, e.g. clothing.

Handy, powerful
thermometer

52576
REEVES-BELLERIAL

Thermometer

- ✓ Temperature Range: -20 - + 50°C
- ✓ Battery included

The room thermometer helps you to constantly measure the temperature of your indoor areas. You will always have the current room temperature in view with this device and so you can control your own energy consumption. The battery-operated thermometer has a measuring range between -20 and 50°C with an accuracy of +/- 1°C. The small thermometer is particularly handy and takes up very little space; however it has a large numerical display, making it easy to read. Logos and slogans can be printed on the edge of the plastic surface.

Material	plastic

thermometer.

52610 REEVES-CLIMASPARK

Weather station

- ✓ Thermometer/ hygrometer
- ✓ Magnetic attachment
- ✓ Stand
- ✓ Wall holder
- ✓ Battery included

This battery-operated weather station serves both as an indoor thermometer and hygrometer. The thermometer measures temperatures ranging from 0°C to 50°C, while the hygrometer gauges humidity levels from 20-95% RH. On its easily readable display, the recorded temperature and humidity are complemented with a smiley face. Should the humidity fall below 40% (too dry) or rise above 70% (too moist), the display will show a displeased expression, otherwise a smiling face appears. The temperature reading can be toggled between Fahrenheit and Celsius by pressing the black button on the backside. The product offers three mounting options: thanks to its fold-out stand, the mini weather station can be placed upright. An incorporated hole on the back allows for convenient wall mounting. With the built-in magnet, the room thermometer can also be affixed to metal surfaces.

Material	plastic

Compact fan: Fits in every handbag!

52588 REEVES-JOLHOLM Rechargeable Mini Fan

- ✓ 3 speed settings
- ✓ Including usb cable
- ✓ With overheat protection
- ✓ Integrated overvoltage and short circuit protection

The portable fan is a useful tool on hot summer days. You can take the lightweight and foldable fan with you everywhere - whether on a long hike, city stroll or sports. REEVES JOLHOLM can also be folded out and placed on the desk. This way, you can also enjoy the fresh breeze while working. Three speed levels are available at the touch of a button. Overheating, overvoltage and short-circuit protections are integrated. A USB charging cable is included in the packaging.

52630 REEVES-DESKSTREAM

Rechargeable Fan with Light

- ✓ 4 speed levels
- ✓ LED colour: white
- ✓ Including USB-A to USB-C Cable
- ✓ With overheat protection
- ✓ Integrated overvoltage and short circuit protection
- ✓ USB-C Connector

This fan stands out due to its flexibility and ease of use since it doesn't need to be constantly plugged into a power source. Standing at 22 cm tall, the table fan can be recharged via a USB-C port. A suitable USB Type-C to USB Type-A cable is included in the package. On its lowest intensity setting, the fan can run for approximately 4 hours.

The round base is equipped with rubberized non-slip feet, ensuring a stable stance. Additionally, the sturdy base incorporates a two-stage dimmable LED light. The functional buttons for the fan and light are clearly positioned on the base. The device also features an LED battery level indicator (blue) and serves as a control light when charging (red).

52613 REEVES-ARCFIRE

Electric arc lighter

- ✓ Charging indicator
- ✓ Loop
- ✓ Including USB-A to USB-C Cable
- ✓ USB-C Connector
- ✓ With overheat protection
- ✓ Integrated overvoltage and short circuit protection

Electric arc lighters operate using the impressive arc technology. The REEVES-Arcfire arc lighter boasts a blue glowing charge indicator, a blue operation light, and an automatic safety shut-off after 10 seconds. As an added safety measure, one must first shift the power switch to the "On" position, then press the ignition button to activate the arc. The flexible neck aids the lighting of candles and fireworks. The silicone loop allows for convenient hanging, i.e. for safe storage out of children's reach. The item can be recharged using the provided USB-A to USB-C cable. Built into the product are features such as surge protection, short-circuit protection, and overheating protection.

CLASSICS & IDEAS

52582 RE98-DAFFIELD

Thermo Lunchpot

- ✓ Double wall with copper-vacuum insulation
- ✓ Dishwasher safe
- ✓ Leak-proof
- ✓ BPA free
- ✓ Capacity: 800 ml

Our double-walled lunch pot with copper vacuum insulation keeps food warm for up to 11 hours and cold for up to 24 hours. The leak-proof thermo container made of high-class stainless steel holds 800 ml of liquid or solid food. Whether for keeping soup, pasta, vegetable and rice dishes warm or for cooling yoghurt, potato salad or ice cream, the thermo container is the ideal companion for on the go. To open the black powder-coated thermo lunch pot, just unscrew the double-walled stainless steel lid. You can use this lid as a serving bowl. This is an extremely comfortable additional gimmick, as the lid is double-walled and protects the user from injuries caused by heat. The capacity of the bowl amounts to 150 ml. Next, remove the main lid of the container. It is made of BPA-free plastic and contains a foldable stainless steel spoon in an extra compartment.

RE98-FRESHFUSION

Lunchbox

eco-box included

- ✓ Heat resistant glass
- ✓ Leak-resistant
- ✓ Dishwasher safe
- ✓ Capacity: 1000 ml

A trendy fusion of bamboo and glass, the RE98- FRESHFUSION combines a stylish appearance with superior quality. The 1000 ml lunchbox is crafted from heat-resistant borosilicate glass, withstanding temperatures of up to 400 degrees Celsius. This makes it perfectly suited for oven or microwave use (excluding the bamboo lid). The transparent, BPA-free silicone seal on the lid's inside edge ensures a leak-proof closure. You can safely place the glass food container in the dishwasher. We offer various branding opportunities for the RE98-FRESHFUSION lunchbox.

52581 RE98-LAUDAT

Lunch Kit

- ✓ Large containers: 2
- ✓ Cutlery set
- ✓ Rubber band
- ✓ BPA free
- ✓ Capacity: 2 x 500 ml

Whether for work, school or leisure - lunch boxes are everyday items for many people and have a long service life. Place your advertising message in the everyday life of your customers and make them happy with our all-rounder RE98-Laudat. The lunch box made of BPA-free plastic contains two black 500 ml containers that are separated by a divider. Inside the separator is a black plastic cutlery set consisting of a knife, fork and spoon. To ensure that the cutlery is safely stowed away, the individual pieces of cutlery are clamped in matching holders. A food separator for one of the two boxes is also included. The lid separator for one of the two boxes is also included. The lid of the lunch box is made of bamboo and plastic. A special feature: plastic and bamboo can be separated, so all plastic components can easily be put in the dishwasher. The bamboo board can also be used as a cutting board. For additional stability, the entire box is enclosed in a black rubber band.

Practical lunch box with bamboo lid: The perfect companion for on the go!

Black barbecue tongs with bamboo handle:
A must-have for all barbecue masters!

52596 RE98-MANISA

BBQ tong

- ✓ Length: 39 cm
- ✓ Safety lock
- ✓ Bamboo handle

The stainless steel barbecue tongs RE98-MANISA are a useful tool for barbecue masters. The bamboo handle gives the tongs a pleasant natural look and forms a trendy colour combination with the black lacquered stainless steel. In addition, the natural material offers a comfortable feel and enables safe handling on the heated barbecue. The ends of the barbecue tongs are slightly curved, so that the food can be gripped perfectly. With a length of 39 cm, the tool fits easily in the kitchen drawer and can also protect the hand from heat. The tongs are equipped with a secure locking mechanism. To unlock the tongs, you only need to press the eyelet on the hinged end of the tongs lightly. To close them, simply pull the eyelet. This allows the tool to be stored in a space-saving way. The tongs can also be hung up using the eyelet.

The powerful, compact multitool combines nine functions in one tool: pocket knife, scissors, nail file, cross and flat head screwdriver, bottle opener, can opener and saw. Almost all everyday issues can be easily overcome using this multitool. The black lacquered multitool can comfortably hang on a key ring with a key ring hole - ideal for travel. The tools are locked in place during use by the safety mechanism. After use, the tools are securely stored in place by the safety lock. This protects the user from accidental injury. To release the safety mechanism, just press the two buttons on the side and push them down simultaneously, so that a tool can be put back. The company logo can be applied on the housing or on the tools with laser engraving. A gift box is included.

Material	Stainless steel
Measurements	80,3 x 10,8 x 220 mm
Weight	81 g
Packaging	Eco-Box
Branding	35 x 8 mm
Handling category	C

Multifunction tool

- ✓ Screwdriver
- ✓ Screwdriver
- ✓ 3/3.5mm spoke tool
- ✓ Carabiner
- ✓ Wire Cutter
- ✓ Bottle opener

Our multi-tool is an indispensable companion for all outdoor activities such as camping, hiking or cycling. It offers all the functions you need to quickly and easily set things up on the go or carry out small repairs. The multi-tool is small and compact and has a solid snap hook on its side which can be easily attached to backpacks or belt loops. Alternatively, the multi-tool can also be attached to a key ring. Various functions can be used by sliding the multi-tool open. The multi-tool is made of solid metal and has a galvanised surface which protects against wear and tear.

Outdoor multitool: The robust all-rounder for all your adventures!

multifunction tools.

All-in-one bike master: Our multifunctional bike tool for all situations!

52586 RE98-SMALLPAIR

Bike tool

- ✓ Tire tool
- ✓ Screwdriver
- ✓ 2/2.5/3/4/5/6/8 mm hex wrench
- ✓ 3/3.5mm spoke tool
- ✓ Chain cutter

The perfect tool for every bike enthusiast! With its multitude of functions, it allows to conduct almost any repair on your bike, on the go, in the event of a breakdown or at home by themselves. Our bike tool is portable and can easily be stored in your bag, backpack or toolbox. A unique feature is the tool for changing tyres/tubes. The multitool is rounded off with useful additional functions such as a bottle opener, a ruler and a protractor. Our bike tool is made of high-class stainless steel and coated in black.

RE98-CARDMATE

Multifunction tool

- ✓ Package opener
- ✓ 2/2.5/3/4/5/6/8 mm hex wrench
- ✓ Screwdriver
- ✓ Bottle opener
- ✓ Can opener

This handy credit card-sized tool stands out due to its multifaceted features and its compact form. This tool is an ideal companion for travel and outdoor adventures as it easily fits into wallets, trouser pockets, or backpacks. This multitool is crafted from high-quality, black-coated stainless steel, offering 8 functionalities: bottle opener, can opener, ruler, screwdriver, hex key, protractor, package opener, and wingnut driver. With this versatile device, one is well-equipped for everyday eventualities. Branding is available via laser engraving or UV printing on the card tool. The item comes in a premium cardboard box.

Tool set

- ✓ Screwdriver
- ✓ Number of star screws bits: 9 pieces
- ✓ Number of slotted screws bits: 2 pieces
- ✓ Number of Cross Bits: 8 pieces

white 52629-WE

black 52629-BK

Precise tasks demand precise tools. This premium precision mechanics tool set, presented in a stylish black box, is specifically designed for intricate tasks on laptops, computers, glasses, and the like. The matte screwdriver with bit holder, alongside the 19 magnetic bits crafted from ultra-hard S2 stainless steel - including 9 star screw bits, 2 flathead screw bits, and 8 Phillips screw bits - ensure maximum adaptability and precision. The box, made from recycled ABS plastic, not only exudes elegance but also securely houses its contents thanks to its high-quality magnetic closure. The interior, made from recycled polypropylene, optimally protects and organizes the tools.

Material	Stainless steel, recycled polypropylene, recycled ABS plastic

52639 RE98-SKILLRISE

Pen Screwdriver 13-in-1

- ✓ Magnetic
- ✓ Number of slotted screw bits: 6 pieces
- ✓ Number of Cross Bits: 6 pieces
- ✓ Screwdriver

Practical and handy – the bit set made of anodized aluminium includes 6 flat bits and 6 cross head bits in various sizes, including precision mechanics. The bits are securely stored inside the pen. The magnetic bits are particularly easy to handle. Simply place the bit at the tip of the pen, and the screwdriver is ready to use. All bits are made of robust S2 steel. The pen shape facilitates the use as a tool, and the grooved surface ensures a good grip. The clip provides the necessary hold on clothing, a toolbox, or a clipboard. With a fine laser engraving, the bit set becomes an attractive promotional item.

Now new: With detachable carrying strap

Choose a bottle

Start your selection with one of our drinking bottles. We offer them in different colours with capacities starting at 350 ml.. For orders of 3,000 or more, we can also customise the colour of the bottle and the softgrip on the lid to suit your needs.

Buckle and customisation

Our new black plastic clip closure is easy to attach to the bottle and can be removed just as easily. The refinement becomes complemented by precise pad printing, which makes your myCasán, myPetrolina or myLille even more attractive and charming.

Choose the strap material and customisation

The polyester strap is available from 100 pieces and customised with your design using heat transfer.

Choose drinking bottle with customisation

Showcase your advertising effectively on the body of the bottle. As usual, there is the option of printing it with your individual motif or logo.
