BEST OF DRINKWARE

Table of contents

RETUMBLER®: BEST OF DRINKWARE

Sustainable drinking bottles and mugs have become part of our everyday lives: we enjoy our morning coffee in a thermo mug while we are on the way to work. During activities like sports a stylish drinking bottle is always at hand when we sweat. If we feel like having a delicious tea on the road, then a classy glass bottle ensures a perfect experience. We, the users, encounter these items on a daily basis and thus have a constant exposure to your brand message. Drinking bottles and cups are not only practical and durable promotional items. They are also very popular with customers. The basic criteria for customers are functionality, quality and design. The RETUMBLER® range of high quality, stylish and aesthetically designed beverage containers gives your customers great value in combination with a real wow effect.

RETUMBLER-DUOSHOT

80 ml

Thermo espresso mug

- Double wall
- Dishwasher safe
- Micro powder coating
- Set of 2

This REFLECTS® original design comprises two premium black espresso mugs made from recycled stainless steel. Their elegantly contoured shape and the black powder coating perfectly complement the design of our RETUMBLER-Colesso thermo mug – positioning the RETUMBLER-Duoshot as an innovative addition to our COLESSO range. Each double-walled 80ml coffee mugs can comfortably hold two espressos. The dual-layer construction insulates hands from the heat, ensuring a delightful drinking experience. These handy espresso mugs are perfect for daily use and on-the-go moments. A practical note: these thermo mugs can be effortlessly and thoroughly cleaned in the dishwasher.

52628 RETUMBLER-DUOSHOT GLASS

55 ml Thermo espresso mug

- ✓ Double wall
- ✓ Heat resistant glass
- ✓ Dishwasher safe
- ✓ Set of 2

This set of two includes double-walled espresso glasses made from borosilicate glass, each with a capacity of 55 ml. The premium material ensures outstanding heat resistance. The practical double-wall design keeps coffee warm for extended periods while simultaneously protecting the hands. Furthermore, the coffee glasses has a unique aesthetic: due to the transparent double-wall, the beverage appears to „float“ inside the glass. The effect makes coffee specialties such as Espresso Macchiato or Espresso Marocchino visually fascinating. Care tip: The espresso glasses can be cleaned in the dishwasher without any residue.

Warmth meets design: Thermo mug made from recycled stainless steel with bamboo handle.

52605
RETUMBLER-ORTADO OFFICE

Thermo mug

360 ml

NEW

- ✓ Recycled Stainless Steel
- ✓ Recycled AS Plastic
- ✓ Leak-resistant
- ✓ Double wall with vacuum insulation

An elegant, finely powder-coated thermo mug complete with a handle and sliding lid - the RETUMBLER-ORTADO-Office is the quintessential office mug from our ORTADO range. Just as with other versions in the range, the mug is crafted from recycled materials: the body is made from recycled stainless steel, while the lid combines recycled polypropylene and AS plastic. The 360 ml mug features a transparent, BPA-free lid with a silicone seal. Its sliding mechanism ensures effortless opening and gentle closing. The genuine beechwood handle is sturdy, adding a pleasing colour contrast to the mug. Owing to its double-walled vacuum insulation, the office mug keeps hot drinks warm for up to 4 hours and cold drinks chilled for up to 24 hours. Tip: Given its wooden handle, we recommend hand-washing the thermal mug.

Material	wood, silicone, recycled stainless steel, recycled polypropylene, recycled AS plastic
Measurements	104 x 123 x 123 mm

360 ml

Thermo mug

NEW

- ✓ Recycled Stainless Steel
- ✓ Recycled AS Plastic
- ✓ Leak-proof
- ✓ Double wall with vacuum insulation

This 360 ml thermo mug with a flip-lid is the perfect companion for on-the-go and in the car. As with other variants from the ORTADO range, the drinking mug is made from recycled materials: the body is crafted from recycled stainless steel, whilst the lid is made from recycled polypropylene and AS plastic. The twist-lock feature, coupled with a silicone seal on the lid, ensures the mug is leak-proof. Due to its double-wall construction and premium vacuum insulation, the ORTADO-To-Go mug keeps beverages warm for up to 5 hours or cold for up to 24 hours. Tip: Both the mug and the lid are dishwasher-safe.

Material	silicone, recycled stainless steel, recycled polypropylene, recycled AS plastic
Measurements	150 x 76 x 76 mm
Weight	216 g

400 ml

Thermo mug

- ✓ Leak-proof
- ✓ Dishwasher safe
- ✓ Double wall with copper-vacuum insulation
- ✓ BPA free

The 400 ml thermo mug is an in-house design and is available in black and white. The transparent lid and the elegantly curved shape of the mug form an impressive appearance. The powder coating provides a pleasant feel and protects the surface of the mug from scratches and fingerprints. The lid was made of BPA-free plastic and is therefore harmless to health. The screw cap and the silicone seal on the lid ensure that the thermo mug is leak-proof. Thanks to the double-walled design and the high-quality copper vacuum insulation, the mug keeps drinks hot for 5 hours. It can be easily and thoroughly cleaned in the dishwasher.

RETUMBLER-VIVERO STEEL

Thermo mug

350 ml

- ✓ Recycled Stainless Steel
- ✓ Leak-proof
- ✓ Dishwasher safe
- ✓ Double wall with copper-vacuum insulation

The mug – made of recycled stainless steel – is available in three versions: black or white powder coating or silver mirror finish. The powder coating gives the thermo mug a modern, matt look and good scratch resistance. The special mirror finish through high gloss polishing forges an absolutely striking look of the mug. The lid is made of BPA-free plastic and is available in either black or white. The double-walled design and the copper vacuum insulation ensure the excellent insulation performance of the mug. The leak-proof mug keeps drinks warm for 6 hours. Tip: All three variants are dishwasher safe.

Thermo mug

350 ml

- Leak-proof
- Dishwasher safe
- Double wall
- BPA free

Our innovative in-house development redefines the principle of the reusable mug for advertising messages. The 350 ml mug consists of three components: The inner mug is made of high-class stainless steel, which can be matched with a white or black lid featuring a uniquely large print area. To round off the concept, there is a choice of twelve outer mug colours - ten transparent and two opaque mug colours.

The outer mug can be used as an additional drinking mug if required. The transparent outer mugs are another highlight of the myVivero, as the inner mug seems to float inside. Advertising on the outer mug gives it a new visual dimension.

- ✓ Micro powder coating
- ✓ 360° lid

The double-walled thermo mug with copper vacuum insulation is available in powder coated white, black, light grey or stainless steel anti-finger print. There are 18 different silicone colours to choose from. The thermo mug keeps drinks warm for up to 6h and cold for up to 24h. Usable from all sides! Exclusive to REFLECTS is the 360-degree drink closure that can be used single-handedly. By simply pressing on the lid, the drinking mechanism is unlocked and closed in the same leak-proof way. The removable anti-slide base of the BPA-free mug protects surfaces from possible scratches and gives the mug a secure and stable hold. The lid can be removed for cleaning. All components are dishwasher safe.

myDringeo

In an ever-changing world where quality and design go hand in hand, we are delighted to have the RETUMBLER-myDringeo thermal mug and 500ml and 750ml capacity thermal bottles in our range. Here are the reasons why these products are a top choice for our customers:

High-class materials: made of stainless steel, these products not only stand for durability and reliability, but also for timeless elegance. Stainless steel is rust-free, neutral and offers the perfect protection for your drink.

Versatile functionality: Whether you want to keep your coffee hot or your water cool during a busy summer day, these products guarantee hours of temperature maintenance. Whether you are on the go with the thermo mug or take our thermo bottles for extended trips or work days, you always have the right product at hand.

Sizes for every need: With the thermo mug and the two thermo bottle sizes of 500 ml and 750 ml, we cover a wide range of customer needs. Whether you need just a small sip or a larger quantity for the whole day, we have the right product for you.

Stylish design: The noble design in stainless steel look makes every product in this series an eye-catcher. They are not only functional, but also fashionable accessories that fit any lifestyle.

Thermo mug

350 ml

- ✓ Double wall with copper-vacuum insulation
- ✓ Dishwasher safe
- ✓ Leak-proof
- ✓ Changeable rubber bottom
- ✓ 360° lid

It's the timeless and classic design that distinguishes the RETUMBLER-myDRINQEO thermo mug from others. The stainless steel mug with anti-fingerprint finish features a practical 360° lid and can be customised with a coloured ring. In addition, the soft base can be chosen from 17 different colours. All configurable components of the Drinqeo family are available from stock in Cologne.

The completely BPA-free mug is double-walled with vacuum copper insulation and has a capacity of 350 ml. Due to a small technical feature integrated into the lid, the thermo mug has a very good insulation performance: it keeps warm for eight hours and cold for 24 hours. The 360° lid can be opened/closed with one hand and allows comfortable drinking without a fixed drinking opening. The soft base ensures a secure stand on all surfaces.

thermo drinking bottles.

mySteelOne

The thermo mugs and thermo drinking bottles from RETUMBLER- mySteelOne are not only aesthetically pleasing, but also technologically advanced and it is for these very reasons that we have included them in our range. Here are some of the most important reasons:

High-class technology: vacuum copper insulation guarantees excellent temperature maintenance - 9 hours for hot drinks and an impressive 32 hours for cold drinks. This ensures that your drink always stays at the desired temperature.

User-friendliness: The 360° lid is not only a clever design element, but also extremely practical. It allows the user to drink from any angle and the deep seal optimises the insulating performance.

Functionality & safety: An anti-slip soft bottom ensures that the mug stands stable, even on slippery surfaces. This minimises the risk of spills and accidents.

Versatility: The thermal drinking bottle is also suitable for carbonated drinks, which makes it an ideal companion for a variety of drinks.

Durability & easy care: The high-class powder coating not only gives the cup and bottle a classy finish, but also provides additional protection. And since both items are dishwasher safe, cleaning them is child's play.

Thermo mug

400 ml

- ✓ Double wall with copper-vacuum insulation
- ✓ Dishwasher safe
- ✓ Leak-proof
- ✓ Changeable rubber bottom
- ✓ 360° lid

The RETUMBLER-mySteelOne thermo mug is the first mug to match the RETUMBLER-mySteelOne thermo drinking bottle. Like the thermo drinking bottle, the double-walled mug with vacuum copper insulation is a REFLECTS design. Special features are its large filling capacity of 400 ml and its unique 360° drinking lid.

The mug is available powder-coated in white, black or silver. The 360 degree lid with engravable stainless steel surface can be opened and closed by simply pressing on the surface. There is no defined drinking opening. This enables the user to enjoy the entire surface of the lid for drinking. A small technical feature is that the seal of the lid is positioned deeper inside the mug, thus further increasing the insulating performance. The mug keeps warm for up to 9 hours and cold for 32 hours.

Thermo mug

400 ml

- ✓ Double wall with copper-vacuum Insulation
- ✓ Dishwasher safe
- ✓ Leak-proof
- ✓ Changeable rubber bottom
- ✓ 360° lid

The double-walled thermo mug with copper vacuum insulation is available in three different glossy varnish colours and two powder coatings. As an attractive, high-class thermo mug, it matches the SteelOne thermo bottle. Both products are a protected REFLECTS own design.

The 360° lid allows comfortable drinking without a fixed drinking opening. The cup can be opened and closed by light pressure on the stainless steel surface of the lid.

The BPA-free thermo mug has a filling volume of 400 ml and keeps drinks warm for up to 9 hours thanks to the deep seal between the lid and the mug. Cleaning in the dishwasher is possible with the varnished mug, but we recommend cleaning by hand. The rubberised interchangeable base and the silicone ring on the lid are in the same colour as the bottle.

Unbreakable? For sure! This shiny stainless steel mug with 270ml filling volume is perfect for all life situations in which ceramic mugs can break quickly. Whether for camping or in the workshop, the mug remains intact if dropped or tipped over. Due to the double-walled construction of the mug, the outside of the mug does not heat up and drinks stay hot or cold for a longer time. Laser engraving as customisation makes it an elegant advertising and brand ambassador.

RETUMBLER-ORTADO 500

500 ml

Thermo Drinking Bottle

- ✓ Recycled Stainless Steel + Recycled PP
- ✓ Leak-proof
- ✓ Double wall with vacuum insulation
- ✓ Dishwasher safe

The RETUMBLER-ORTADO-500 is a premium thermo bottle crafted from recycled stainless steel and recycled polypropylene plastic. It captivates with its aesthetic design, tactile pleasure, and outstanding quality. Owing to its double-walled vacuum insulation, this drinking bottle offers superb insulation properties: beverages maintain their warmth for up to 7 hours and remain cold for up to 36hours. The delicate powder coating gives the bottle an exceptionally pleasing touch. A cork lid, complemented with a practical handle, provides a harmonious appearance. The handle ensures the drinking bottle can be comfortably carried or attached to a bag – making it perfect for on-the-go. The silicone seal and twist cap ensure the thermo bottle is securely sealed, offering leak-proof protection. This makes the bottle suitable for carbonated drinks. The item can be cleaned in the dishwas

52604 RETUMBLER-ORTADO 750

750 ml

Thermo Drinking Bottle

- ✓ Recycled Stainless Steel + Recycled PP
- ✓ Leak-proof
- ✓ Double wall with vacuum insulation
- ✓ Dishwasher safe

The RETUMBLER-ORTADO-750 is a premium 750 ml thermo bottle crafted from recycled stainless steel and recycled polypropylene plastic. Its striking appearance, pleasing touch, and outstanding quality set it apart. The double-walled vacuum-insulated bottle has excellent thermo characteristics, ensuring beverages stay warm for up to 11 hours and cold for up to 41 hours. The bottle's fine powder coating provides an exceptionally pleasant tactile experience. An elegant cork lid with a metal handle complements the design harmoniously. Due to its silicone seal and screw cap, the bottle is securely sealed and leak-proof, making it suitable for carbonated beverages. The handle allows it to be comfortably carried or attached to a bag. The thermo bottle can be safely cleaned in a dishwasher. Please note: The cork lid is not dishwasher safe.

RETUMBLER- myTOULON-GLASS is an evolution of the popular RETUMBLER-myToulon drinking bottle – now crafted from new materials. This 650 ml bottle is made from borosilicate glass, recycled stainless steel, and recycled polypropylene plastic. A standout feature of the high-quality, heat-resistant borosilicate glass is its handcrafted, mouth-blown craftsmanship. With its matte, translucent finish (resembling frosted glass), the bottle is truly a sight to behold (available for colour models only). This leak-proof drinking bottle is suitable for both hot and cold beverages.

The configurable myToulon-Glass bottle can be paired with a silicone ring and sleeve, with a choice of 17 different silicone colours.

Care tips: The clear bottle can safely be washed in a dishwasher, the painted models should be hand-washed.

Carafe

- ✓ Leak-proof
- ✓ Double wall with vacuum Insulation
- ✓ Pourer
- ✓ Micro powder coating

Elegant design and well thought-out functionality make this carafe a must-have on every table – inside and outside. It has a capacity of 1 litre and its vacuum insulation keeps its contents reliably warm or cold. Its powder-coated surface also gives the carafe a wonderful feel. Besides the cork-covered screw cap, the carafe has a practical pouring aid.

Glass Bottle

- ✓ Borosilicate glass
- ✓ Leak-proof
- ✓ Dishwasher safe

Our drinking bottle (700 ml) is made of high-quality borosilicate glass and is still extremely light. Glass is particularly suitable for drinks, because glass is odourless and tasteless and does not interact with other substances. The lid is made of beautiful stainless steel on which an engraved logo comes out particularly well. The soft protective case has a practical loop, so you can easily take the bottle anywhere. The bottle is not suitable for carbonated drinks.

52104 RETUMBLER-SLEDGE

Glass bottle with tea strainer

- ✓ Borosilicate glass
- ✓ Leak-proof
- ✓ Double wall
- ✓ Tea strainer

Thanks to the removable strainer, you can determine the aroma and strength of the tea individually - according to your own preferences. Pour the tea directly into the tea bottle or into the tea strainer. The amount depends on the type of tea and the desired strength. We recommend two to eight grams. Fill the hot water directly into the tea bottle and close the lid. Let the tea steep in the bottle for one to five minutes (depending on the variety and personal preference). Depending on the variety, the tea can be brewed up to four times.

After the desired infusion time, simply remove the movable stainless steel strainer from the glass bottle and enjoy up to 500 ml of delicious tea aroma!

Caution: The tea stays hot in the bottle for a very long time!

RETUMBLER-AUPRY**

Drinking bottle

500 ml

- Leak-proof
- Loop
- Recycled PET plastic

The RETUMBLER-AUPRY is a practical, leak-proof drinking bottle offering outstanding value for money. The bottle is crafted from recycled PET plastic and the inner side of the lid is made from recycled polypropylene plastic. Both materials are BPA-free, ensuring they are safe for health. The exterior of the lid is fashioned from stainless steel.

Due to its carry loop, this drinking bottle can be easily transported, making it ideal for on-the-go. Please note that this bottle is designed for cold beverages below 40 degrees Celsius. As such, we recommend hand washing the RETUMBLER-AUPRY.

Now new: With detachable carrying strap

Choose a bottle

Start your selection with one of our drinking bottles. We offer them in different colours with capacities starting at 350 ml.. For orders of 3,000 or more, we can also customise the colour of the bottle and the softgrip on the lid to suit your needs.

Buckle and customisation

Our new black plastic clip closure is easy to attach to the bottle and can be removed just as easily. The refinement becomes complemented by precise pad printing, which makes your myCasana, myPetrolina or myLille even more attractive and charming.

Choose the strap material and customisation

The polyester strap is available from 100 pieces and customised with your design using heat transfer.

Choose drinking bottle with customisation

Showcase your advertising effectively on the body of the bottle. As usual, there is the option of printing it with your individual motif or logo.
